

AXP™ Heavy-Duty Cleaner/Degreaser

FACT SHEET

The touch-free, tough detergent for your AXP system

The Advance AXP™ Heavy-Duty Cleaner/Degreaser is the more-uses, less-hassle answer to your most demanding hard-floor cleaning needs. Designed specifically for use in Advance scrubbers with the AXP onboard detergent dispensing system, this detergent is formulated with high levels of active ingredients to break down even the toughest dirt. It is ideal for your biggest cleaning challenges – including heavy grease, oil, and carbon residue from machines.

With the AXP Heavy-Duty Cleaner/Degreaser you never waste detergent, water, or time. This “no-touch” system speeds cleaning by eliminating the need for measuring or mixing. Simply insert the pre-filled, recyclable AXP cartridge into your Advance AXP scrubber, add clean water to the solution tank and go. The AXP system automatically registers the cartridge and dispenses the correct rate of detergent.

With the onboard AXP detergent dispensing system, detergent is combined with clean water at the scrub deck – just before the cleaning solution is applied to the floor. This system eliminates the possibility of cross-contamination between detergents and the hassle of cleaning out the solution tank.

The large-capacity 1.25 gallon cartridge contains enough AXP Heavy-Duty Cleaner/Degreaser to produce 500 gallons of solution. Operators can spend less time prepping and more time cleaning.

By eliminating the need to pour or mix detergent, your operator doesn't have to worry about coming into contact with chemicals or lifting heavy containers. And because the detergent and water are combined just before the solution is applied to the floor, there's no wasted detergent or water. The AXP system means more safety and convenience for your operators and minimized water usage and environmental impact. It's that simple.

If you're looking for a powerful detergent alternative for your AXP onboard detergent dispensing system, look to the professionals at Advance.

Technical Specifications

AXP Heavy-Duty Cleaner/Degreaser

pH Level	12
Volume Per Bottle	1.25 gallons
Solution Mixed Per Bottle	500 gallons
Product Quantity	4 bottles of AXP Heavy-Duty Cleaner/Degreaser
